

This was hilarious. I knew I had to produce an illustration of Hartshough, Minka, and Marguerite being carried back to the Lands by Leviathan in a half-destroyed carriage, but had no idea how to pull it together. However, finding one fantastic photo after another made it happen.

First, there's this beautiful pearlescent [sky](#)¹ for a background. Then I found [this](#)² elegant carriage in which Leviathan carries his charges to the Fastnesses and back again. I imported the carriage [seat](#)³ that you can't really see, so here it is below, in its original state.

To show how much the carriage was destroyed, I used practically all of [this](#)⁴ photo. As you can see from the illustration, [Minka](#)⁵ is having a nervous breakdown (again, her hair came from [here](#)). But [Marguerite](#)⁶ is so cool, she wears high heels to be abducted. And [Hartshough](#)⁷ looks as though he's enjoying himself.

Finally, those humongous talons came from [here](#).⁸ Imagine having those loom above you.
